## Health Insurance and Health Center

Dear GSIS Student,

Greetings from rainy Seoul!

This is Administration Office of Graduate School of International Studies at Korea University! Hope you've been well.

Today, we would like to give you more details about **Health Insurance and Health Center**. Unexpected health care expenses may create barriers toward completing a degree. Please read the following information thoroughly as the health and well-being of our student is our priority.

### I. HEALTH INSURANCE

The Ministry of Education, South Korea requires all international students to have health insurance during their stay in Korea. In order to follow the regulation set by the Ministry of Education and to ensure students are well prepared for medical situations that could create barriers to their learning, Korea University requires students to carry qualifying health insurance. Therefore, you must submit a copy of your insurance **every semester** to GSIS Administration Office in person or by email to [gsis@korea.ac.kr](mailto:gsis@korea.ac.kr).

Please be informed about the KU insurance policy on international students and find out various insurance options available. Also, please note that even if the coverage period is more than 6 months (one semester), you must provide a copy of the same insurance to GSIS Administration Office every semester in order to prove that you have one under your name.

\* **Approved Insurance:** Insurance that covers medical expenses in Korea  
(consultation and prescription fees, hospital charges and so on)

\* **Travel insurance,** Insurance that covers only death or medical expenses only in your home country, Any insurance that does not cover medical expenses in Korea will not be approved.

It is **MANDATORY** to submit a copy of your insurance certificate to GSIS Administration Office in person at the beginning of every semester until you graduate. We will also inform you by email in advance and upload a notice on our website (<https://gsis.korea.ac.kr>) every semester.
