

[eMoldino] Web Design & Development Intern

About Us

eMoldino is an enterprise-level supply chain management (SCM) solutions provider that specializes in cultivating digital transformation for Fortune 500 partners and major manufacturing organizations worldwide. By utilizing cutting-edge technologies, such as AI and machine learning, eMoldino delivers data-driven business intelligence to lead the industry 4.0. movement.

We are currently undergoing an aggressive expansion in the most cutting-edge sector of solution delivery. As a member of our organization, you will gain firsthand experience collaborating with Fortune 500 corporate clients. Traveling and consulting business partners in the US, EU, and Asia are essential parts of the work. If one likes to travel, it would be an added benefit.

Our mission is to help global manufacturers rethink supply chain management, driving true corporate innovation and bringing customer experience into the cycle.

Responsibilities include, but are not limited to:

- Design page layouts and templates
- Apply strong UI/UX Design for Mobile and Web Design, Banners, and all assets for the eMoldino website including: Home page, Landing Pages, Case study Pages etc
- Create eye catching interactive designs using static graphics, lottie animations, and video
- Produce mock-ups designs for use in social media and marketing channels
- Maintain consistent branding
- Collaborate with marketing, solutions, and other teams
- Create and maintain a database of design assets
- Incorporate customer feedback, usage metrics, and usability findings into your designs to enhance and optimize the user experience and user interface
- Proficiency in front-end development web programming languages such as HTML, Node, CSS/SCSS, and JavaScript/TypeScript
- Implement technical SEO best practices including content structure, tags and data cataloguing
- Implement web analytics tags and tracking
- We are currently working with Wix and Hubspot so someone with experience there will be preferred

Requirements:

- Fluency in English both Korean
- BA/BS or BFA in Design, Visual Arts, or equivalent
- Impressive portfolio of prior visual design work
- Very good knowledge of WIX
- Highly skilled in Figma, Adobe Creative Cloud and other design tools
- Excellent attention to detail and ability to proof-check your own work
- Understanding of current HTML/CSS standards
- Enthusiasm for an iterative design process inspired by group critique
- Respect and meet deadlines
